

OUR PARTS PUT YOU IN THE PASSING LANE

MIRRORS

See clearly.

A combination of quality, styling and performance make Velvac mirrors the benchmark for medium and heavy duty commercial, recreational and specialty vehicles. Our mirrors reduce blind spots and provide clear views of passing lanes, making you a safer, more efficient driver.

- **West coast and mini-LEM mirrors**
- **Blind spot, accessory, chassis mirrors**
- **OEM replacement mirrors**

MIRRORS

ALL MAKES

West Coast Mirrors

- Velvac's 2010 west coast mirror offers the widest viewing area available!
- Larger glass 2010 mirrors feature over 106 square inch viewing area
- Designed to fit any standard 17½" span loop
- Replaceable ⅛" FSC mirror glass
- 4 amp, temperature-controlled heating element provides quick, even defrosting and prevents mirror glass from overheating
- Polished 300 series stainless steel outer shell and heavy-duty ABS plastic inner housing combine to ensure durability and good looks
- Optional marker light provides additional safety by indicating the widest point of the vehicle to oncoming drivers
- Mounting hardware included

- Remote models also include a momentary motor switch

Remote 2010 Mirror Features

- Heavy-duty, 1.5 RPM motor for fast, smooth adjustments
- Sealed motor housing for protection against moisture and contaminants
- Automatic slip clutch for manual adjustments without gear damage
- Interchangeable wire harness allows for convenient retro-fitting

Blind Spot Convex Mirrors

DuraBall® Convex

- Velvac's DuraBall® mirror and pivot system features a HD nylon inner and outer ball with stainless bolt and locking "L" bracket for easy mounting and operation
- Heavy gauge stainless steel or powder coated galvanized steel construction protects mirrors against corrosion
- Rolled edge on 5" and 8½" diameter mirrors - outer gasket on 6" diameter mirrors
- Available in popular 10", 8½", 6" and 5" diameters with several lens options. The 8½" is also available with center mount or offset mount
- DuraBall mirrors guaranteed against shell cracking and breaking for 5 years
- Mirrors other than wide view include mounting "L" bracket or tube bracket, mounting hardware and display box

Blind Spot Convex Mirrors

Continued

| Description | ROC |
|------------------|-----|
| 10" Wide view | 8½" |
| 8½" Wide view | 5½" |
| 6" DuraBall | 14" |
| 5" DuraBall | 10" |
| All other convex | 13" |

Helpful hint:

Mirror head diameter and ROC (radius of curvature) help determine field of view coverage and image size provided by the convex mirror. Wide view convex mirrors are typically used for front and rear cross view applications where a wide field of view is desired. Standard convex mirrors are used for viewing targeted blind spots or passing lanes around the vehicle

5" and 6" diameter

NOTES

¹ For heavy duty nylon ball stud see page M11

² Stainless steel tube bracket and clamp kit 723057 also shown on page M130

NOTES

For replaceable front crossview for USPS LLV and CRV, see page M124

Blind Spot Convex Mirrors

Back view
Eyeball convex

- Provides outstanding views of troublesome and dangerous blind spots around the vehicle
- Choose from 10", 8½" and 6" diameter in stainless steel, powder coat steel or ABS plastic with standard K-10 convex and Eyeball® convex lens options
- HD inner and outer nylon ball stud with stainless steel mounting hardware for durable, smooth and long lasting operation
- Use as a supplement to west coast mirrors, side blind spots or front and rear cross view applications
- Heavy duty outer gasket protects mirrors from edge shock and allows mirror lens to be easily replaced

8"
Polypropylene
convex mirror

- 12" radius of curvature
- Light weight one piece non-corrosive plastic shell
- Adjustable stud mount ball socket
- 5/16" mounting hardware included

MIRRORS

ALL MAKES

Safety Mirrors

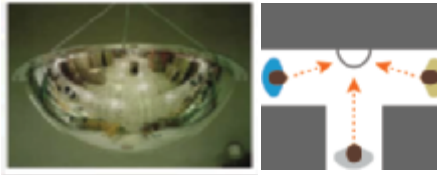

- Provides a bright distortion-free view of an entire area, allowing in-plant vehicles and/or personnel to move safely through the facility
- All hemisphere mirrors include mounting clips for attaching to drop ceiling "T" bars. Pendulum style installation kit can be ordered for corner hanging applications

Helpful hint

Mirror diameter in inches should be equal to viewing distance in feet. (For example, a 16" mirror should be used for viewing 16' away.) If mirror is to be used for security, a larger diameter is recommended because of image clarity

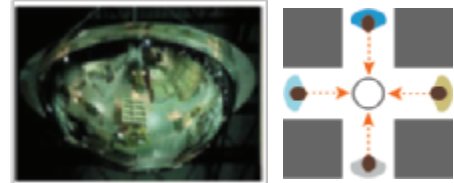

180° Hemisphere Mirror

- For use in a 3-way "T" corridor and other wide-angle viewing

360° Hemisphere Mirror

- Can be suspended from ceiling to see blind corners

| 180° View | 360° View | Diameter | Ceiling Height |
|-----------|-----------|----------|----------------|
| 730209 | - | 18" | Up to 8' |
| 730210 | 730201 | 24" | 8' to 10' |
| 730212 | - | 30" | 10' to 12' |
| - | 730202 | 36" | 12' to 15' |

K-10 Observation Window

- Clear polycarbonate bubble window - 360° viewing
- Permits easy viewing of high stress areas before or without entering

| Part # | Size |
|--------|-----------------|
| 702157 | 18" x 1/4" x 6" |

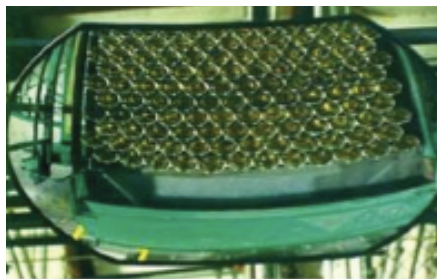

Installation Kits

| Part # | Description |
|--------|---------------------------------|
| 730195 | Pendulum style installation kit |

K-10 Hemisphere® is a registered trademark of Velvac, Inc

Oblong Indoor Mirror

- Bright distortion-free images allow excellent safety vision and traffic control as well as quality inspection viewing of assembly lines or machinery production areas

| Part # | Diameter |
|---------|-----------|
| 730126* | 24" x 16" |

*Custom for off-road equipment

Heavy duty full round outdoor ABS mirror back

Heavy Duty Full Round Outdoor / Indoor Full Round Mirror

- *Outdoor:* perfect for safety and security. Installation in blind alleys, loading docks, parking ramps or garages. Includes ABS back and hardware for swivel mounting
- *Indoor:* ideal for detailed observation where employees and equipment meet. Includes hardware and swivel for mounting

| Part # | Dia. | Application |

Class A RV, Bus and Truck Mirrors

- Velvac's line of side mount and corner mount mirrors are designed with a focus on safety, quality and styling. Typical applications include Class A motorhomes, motorcoach, fire truck and rescue vehicles. Produced from high quality materials, these mirrors can be configured to meet specific customer and application requirements

Available Features/Options

- Deluxe, V-MAX™ or V-MAX III™ mirror heads
- Top Hat™ add-on convex for Deluxe head
- Chrome plated or powder coated finish

- Easily replaceable manual or heated remote glass
- Lower marker lamp on arm or signal arrow in the flat glass
- Lower LEM camera with LED marker lamp

Model 2025 Mirror System

- Mirror system mounts to the flat side of the vehicle, allowing the mirror to be viewed through the side window

Shown with Deluxe head

Revolution™ Mirror System

- Mirror base pivot system mounts to flat side of vehicle and allows mirror to be folded forward or back for vehicle storage

Shown with V-MAX™ head

Model 2030 Mirror System

- Corner mounting base available with 9", 10", 11", 12" or 15" radius. Contact Velvac for custom applications
- Mirror arm lengths available from 10", 12", 14" or 17". This allows mirrors to be viewed through the windshield or side windows

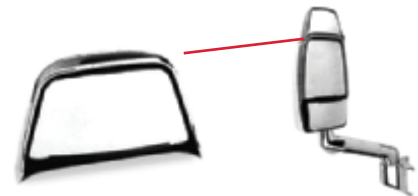

Shown with Deluxe head and add-on Top Hat™ convex

Top Hat Add-On Convex Mirror

| Part # | Color |
|--------|--------|
| 715372 | Black |
| 715373 | White |
| 715374 | Chrome |

- Installs easily on top of Deluxe head for added visibility of blind spots or other vision targets
- Fits on either driver side or passenger side mirror

Deluxe Revolution™, V-Max™, V-MaxIII™ and Top Hat™ are trademarks of Velvac, Inc.

NOTES

Top Hat fits either driver side or passenger side
All heads shown are heated remote flat glass

Camera not included with replacement LEM heads

Hood Mount Mirrors

Velvac's Mod Pod™ and K-10 Version-2 Hood Mount Assemblies

Helpful hint:

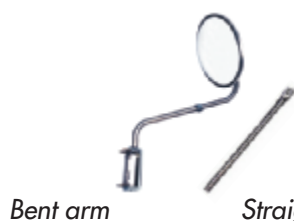

The popular Velvac Mod Pod and K-10 Version-2 (V-2) mirror systems incorporate a lock down feature that offers superior stability and easy adjustments. To position the mirror, simply loosen the set screw with a 5/32" allen wrench, lift and rotate the mirror arm into proper viewing or fold back position then retighten the set screw. Precision gears set at 12 degree intervals ensures a perfect view every time!

- Aerodynamic design features corrosion resistant stainless steel tubing brackets with chrome-plated die cast mounting base for long lasting attractive appearance
- (4) 1/4" - 20 mounting studs are factory assembled to the base for easy installation on either conventional or COE trucks
- Velvac Mod Pod mirror kits features Velvac's 8 1/2" DuraBall with nylon ball joint system, guaranteed for five years against cracking or breaking (see page M11 and M12 for details)
- K-10 V-2 mirror kits feature an 8 1/2" Eyeball convex mirror (see page M13 for details)

FORD & GM 2020 VAN AND CAB CHASSIS MIRRORS

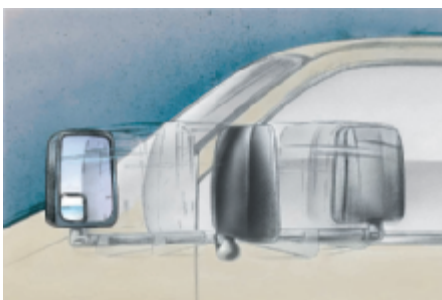

- Velvac's 2020 and 2020XG family of mirrors feature OE fit and styling, and provide outstanding visibility of passing lanes and blind spots around the vehicle, making them the industry standard for wide body cutaway van and truck cab chassis applications. These mirrors mount directly to the OE sail area on the door for clean and easy installation. The modular design allows a single mirror style to be used across multiple van and truck platforms, making them perfect for all OE and fleet applications. In addition to the original 2020 mirrors, Velvac now offers a new 2020 Mini-LEM system with integrated camera options and our new 2020XG, the next generation in wide body mirror technology

Standard

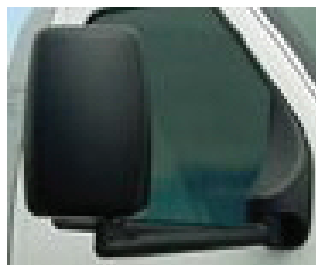

Deluxe

Unique pivot design

Model 2020 Mirror System

- Model 2020 mirrors are designed specifically for wide body applications such as high cube cutaway vans, rental trucks, Class C RV's and ambulances. The fixed length arms are designed to position the mirror beyond the body providing the driver with an unobstructed view of blind spots and passing lanes around the vehicle. These versatile mirrors are available in several body widths and finishes as well as manual or heated remote glass
- Mirrors available for 86", 96" and 102" wide bodies
- Die cast arms and bases are e-coated and powder coated for corrosion resistance
- Available in black, white and black base/arm with chrome head
- Two mirror head options:
 - Standard head with lower wedge convex
 - Deluxe head with full width lower convex
- Fold away feature allows mirrors to fold forward and back for easy vehicle storage and protection against impact

Model 2020 Mini-LEM Mirror System

- Velvac has added the exclusive pre-positioned lower camera option to the 2020 mirror, providing even greater coverage of the blind spot areas around the vehicle. These mirrors are available with either a black and white CCD camera or the featured CMOS color camera for even greater clarity and object detection
- Camera image is reversed to provide a picture in the same orientation as the mirror image for seamless observation of blind spots and passing lanes
- CMOS color camera with infrared LED's provide greater image definition, truer colors and anti-blooming technology, allowing drivers to quickly identify objects in a variety of light conditions
- Systems can be designed to integrate with back-up cameras for complete vehicle blind spot coverage. See [Vision Systems](#) section for more information on Velvac's back-up cameras and CMOS camera technology

2020 Mini-LEM with turn signal option in flat glass

NOTE: Part numbers listed in RED are NEW!

MIRRORS

FORD & GM 2020XG VAN AND CAB CHASSIS MIRRORS

Model 2020XG Mirror Systems

- A combination of styling, quality and performance make the 2020XG the new benchmark for wide body mirror systems. The fully integrated arm, base and mirror head look stylish, and together reduce vibration and provide large, clear views of the blind spots and passing lanes. Since these mirrors are designed specifically for 96" and 102" wide bodies, they provide a complete vision solution with no compromising

Helpful hint:

Most cutaway van and cab chassis OE mirrors are not designed for body widths that extend beyond 96 & 102 inches. Misuse of these narrow OE mirrors leads to obstructed views and dangerous blind spots and may not fully meet all DOT mirror requirements based on these applications.

Be confident that your wide body vehicle meets or exceeds FMVSS 111 requirements for Rear View Mirrors with Velvac's mirrors

Style/Value

- Fully integrated base, arm and mirror head for a clean OE look
- "Swept back" design prepositions the mirror in the optimal location; no head adjustment necessary
- Stylized mirror base fits directly in the OE "sail area" mounting holes
- Rigid design for better stability and image clarity
- Easily replaceable mirror head, glass and arm components help reduce downtime and service costs

Quality

- Die cast aluminum mounting base and upper arm are e-coated and powder coated for corrosion protection
- OEM-approved plastic mirror shell and lower arm deliver durability and UV resistance
- Pivot system allows the mirror to be folded forward or back upon impact and returned easily to the normal driving position

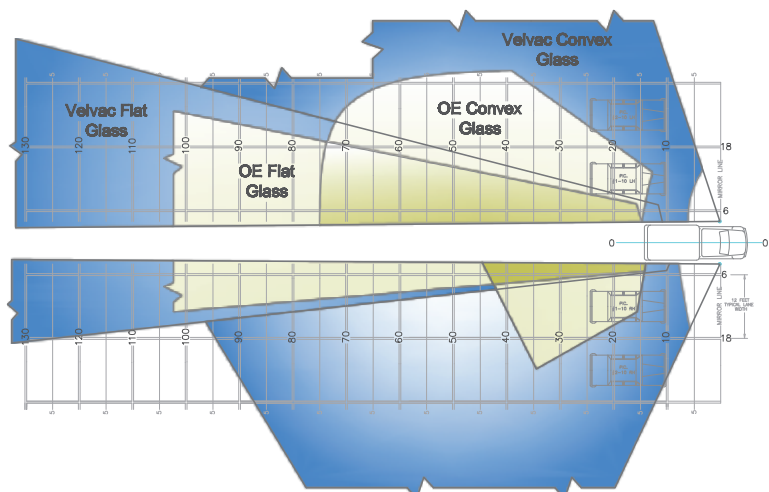

Increased safety

- Advanced vibration dampening in mirror head keeps image steady even on rough road surfaces
- 63 sq. in. flat glass and 29½ sq. in. convex glass with 18" ROC provides great visibility of the passing lanes and blind spots around the vehicle

Field of View Coverage

- Field of view diagram below shows the superior vision and blind spot coverage provided by Velvac 2020 and 2020XG mirrors relative to typical OE mirrors used on a wide body applications. Velvac's 2020 and 2020XG mirrors can help to reduce blind spots and provide visibility of multiple passing lanes around the vehicle leading to better driving decisions and the reduction of costly accidents

Field of View Comparison

Field of View Comparison

OV coverage: Velvac (blue), OE (green)

Information shown above represents a typical vision pattern when using Velvac 2020 or 2020XG mirrors compared to a typical OE option mirror

|--------|------------------------|
| 723049 | Stainless steel tubing |

6" Pivot Bolt Mounting Bracket

- Ideal for adding an auxiliary spot mirror below a west coast mirror head
- Stainless steel construction
- Overall length 4⅞"

| Part # | Description |
|--------|---------------------------|
| 723055 | For ⅝" and ¾" pivot bolts |

"L" Style Mounting Bracket

- Sturdy ⅛", 11 gauge construction
- Pivot hole accepts ⅝" and ¾" bolts
- Slotted hole provides additional mirror head adjustment
- Ideal for mounting Velvac DuraBall® convex and all other convex mirrors

| Part # | Description |
|--------|-----------------|
| 723100 | Stainless steel |

Replaces Velvac Part No. 723080

Bracket Mount Mirror

- Attaches easily to west coast mirror bracket on any truck
- All stainless steel construction

| Part # | Description |
|--------|-----------------|
| 712648 | Two arm bracket |

Bracket and hardware ONLY - mirror head sold separately

Adjustable Tubing Arms

- Universal adjustable support
- 10½" long threaded led with extension adjustment from 19" to 25"
- Threaded leg can be cut to reduce minimum overall length
- Available in stainless steel and powder-coated galvanized steel finishes

| Part # | Description |
|--------|-----------------|
| 747070 | Stainless steel |
| 747072 | Black |

Fender Mount Extension Bracket

- Adjustable from 13½" to 17½"
- Bell mount base provides extra support
- Stainless steel construction
- Mounting hardware included

| Part # | Description |
|--------|-------------------------------|
| 723047 | Fender mntd extension bracket |

Bracket and hardware ONLY - mirror head sold separately

Sleeve and Nut Kit

- For conventional and step van brace and adjustable bracket assemblies
- Brass sleeve and chrome nut

| Part # | Description |
|--------|--------------------|
| 748215 | Sleeve and nut kit |

The Stabilizer Heavy-Duty Convex L-Bracket

- Unique two piece L-bracket developed in conjunction with major truck OEs
- Rigid stabilizer bracket improves image stability in convex spot mirror by reducing vibration
- Individually packaged

| Part # | Description |

| 748009 | Rubber preset pivot kit |

Switch Kit for Heated Mirrors

- Dash mounted kit controls one to two heated mirror heads

| Part # | Description |
|--------|------------------------------|
| 747053 | Switch kit for heated mirror |

Clamp, Brace & Bracket Kit

- Ideal for adding auxiliary spot mirrors to existing loop or brace

Spring Preset Pivot Kit

- Replacement kit for mirrors with standard Velvac spring preset systems and UPS walk-in vans with Velvac mirrors
- Use to upgrade mirrors with rubber washer preset to a spring preset for improved pivot action
- Stainless steel rivet plate extends life of loop and improves pivot action on mirrors with worn preset rivets
- 5/16" - 18 x 2" stainless steel bolt
- Kit contains parts for one complete spring preset pivot end

| Part # | Description |
|--------|-------------------------|
| 712979 | Spring preset pivot kit |

Preset Rivet Plate

- Designed for use on all Velvac preset loops except those with tension control stop preset as found in kit Part No. 748371
- Two stainless steel rivet plates extend life of loop and improve pivot action on mirrors with worn preset rivets
- Mounts easily between existing mirror loop and preset lock plate
- Easy retrofit - can be completed without taking mirror assembly off the vehicle
- 5/16" - 18 x 1 3/4" stainless steel pivot bolt and 5/16" - 18 x 2" stainless steel preset bolt
- Kit contains all upper and lower pivot hardware for one mirror assembly

| Part # | Description |
|--------|------------------------|
| 748377 | Preset rivet plate kit |

| Part # | Description |
|--------|-------------------------------|
| 723091 | Clamp, tubing arm & L bracket |

Heavy-Duty Preset and Pivot Upgrade Kit

- Designed for use on all Velvac preset loops except those with tension control stop preset as found in kit Part No. 748371
- Improves pivot holding force on mirrors with large loops or large / heavy mirror head combinations
- Unique spring / washer combination retains pivot system torque to keep mirror in set viewing position until moved and provides superior detent action for foldaway applications
- Life cycle tested to over 50,000 pivot cycles
- Preset rivet plate fits over existing preset rivets to extend life of loop and improve cycle performance

| Part # | Description |
|--------|---|
| 748355 | Heavy-duty preset and pivot upgrade kit |

*Order one Part No. 748355 per side

Helpful hint:

Kit can be used to upgrade mirror loops with standard rubber or spring preset systems (similar to Part No. 748009 or 712979 detailed on this page)
